

Fly Right - Interaction with others – Wide Wide World of Drones / UAS / UAVs Greg Schulz – FAA Team DronePro – Part 107 - Greg@PicturesOverStillwater.com

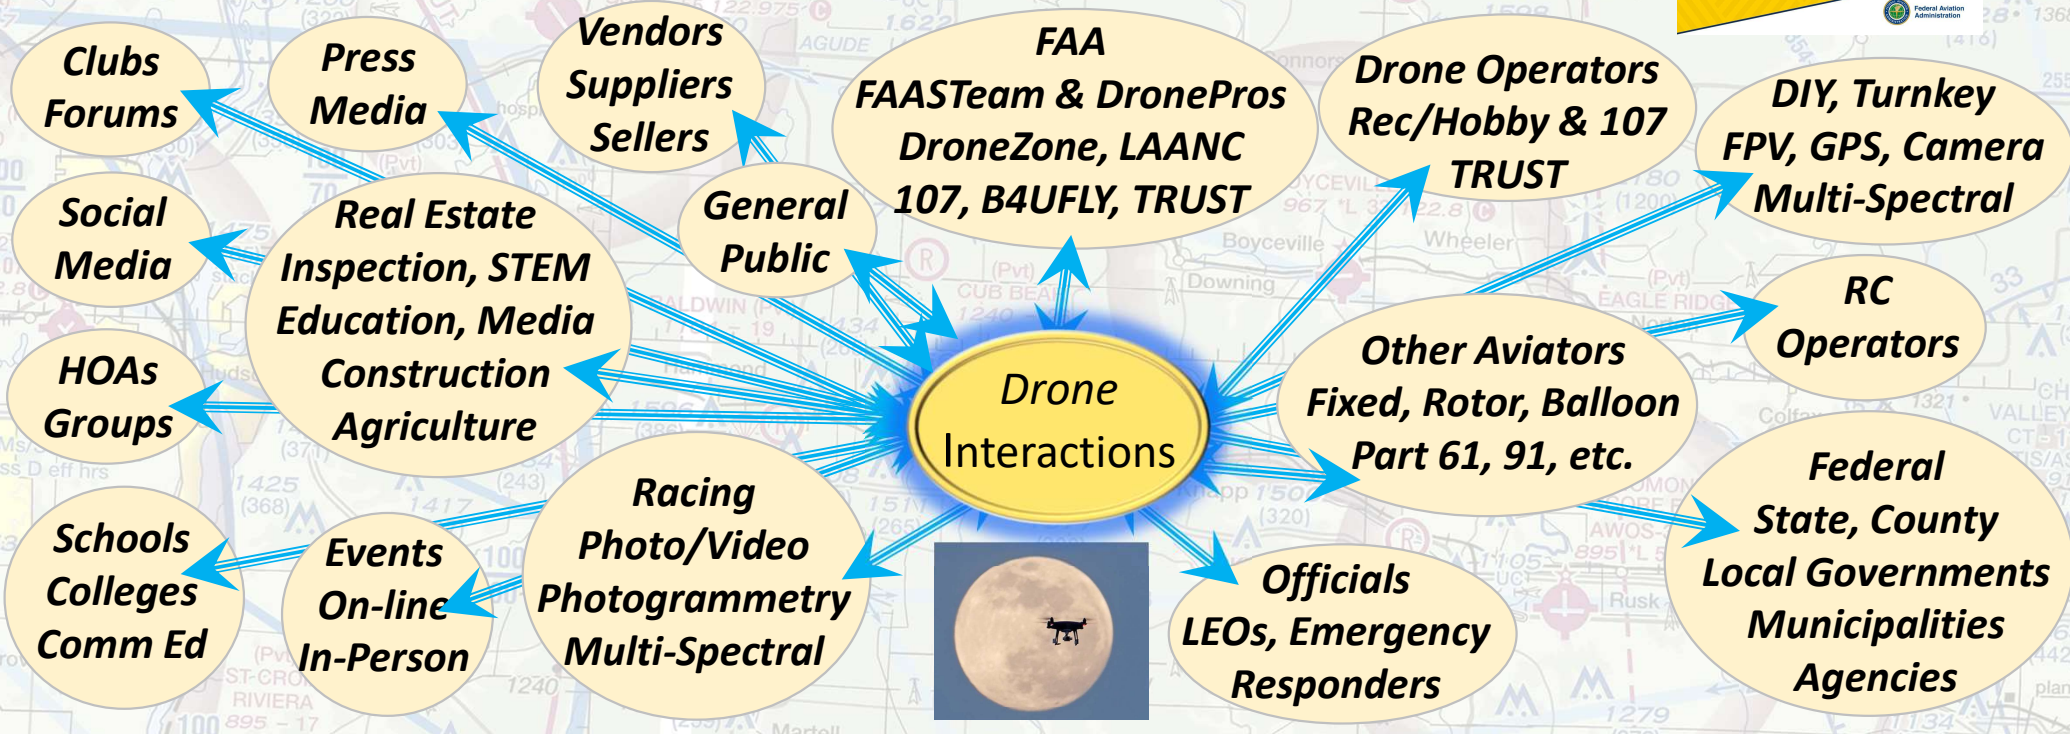

Operating Drones outdoors in the National Air Space (NAS) means sooner or later you will have Interaction with others. Interactions can also be with manned aircraft pilots to learn more about aviation in general, as well as share info about drones with them. Other interactions can be with people who want to learn about drones, to those who may have an issue, challenges, or concern including emergency first responders among others.

What's common is that as aviators we all share the same airspace, concern for safety, as well as can learn from, and help each other.
